Coming, and how to get it 16

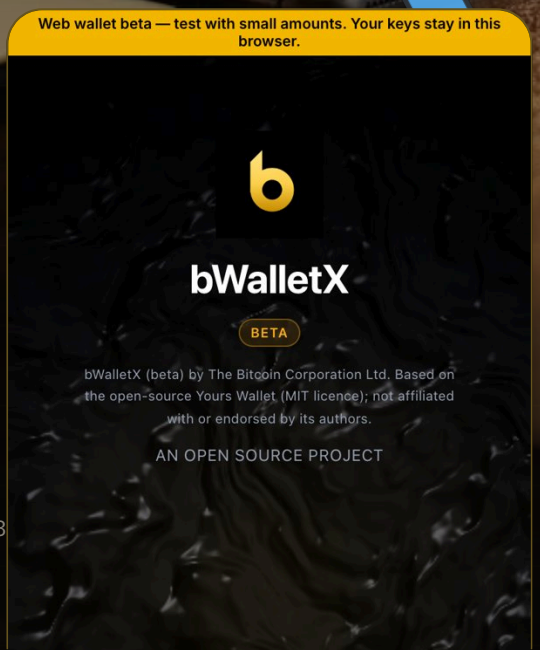

> *Everything in here is* **LIVE** *today, unless it says* **COMING** .

THE WALLET

One wallet. Every device.

- **LIVE** Web: web.bwalletx.com
- **LIVE** Android: direct download
- **LIVE** Chrome extension
- **LIVE** Desktop, in your browser
- **LIVE** iPhone: web app, or the TestFlight beta

Your keys are made and kept on your device. We can’t move your money.

The big screen.

Money, bMail, chat rooms, Spaces, bApps and Ask b side by side. Free in your browser, or install it as an app. Press ⌘K and tell b what to do.

NAMES

One name. Two addresses.

$you

you@bwalletx.com
you@bmailx.com

LIVE Claim a $name: it works at both addresses, same wallet

LIVE Signed by your own wallet, so nobody (us included) can quietly re-point it

LIVE Every change goes into a public log

LIVE Hand a name on: it moves only when the other wallet accepts

> *Pay $you. It lands with you. That's it.*

BCHATX

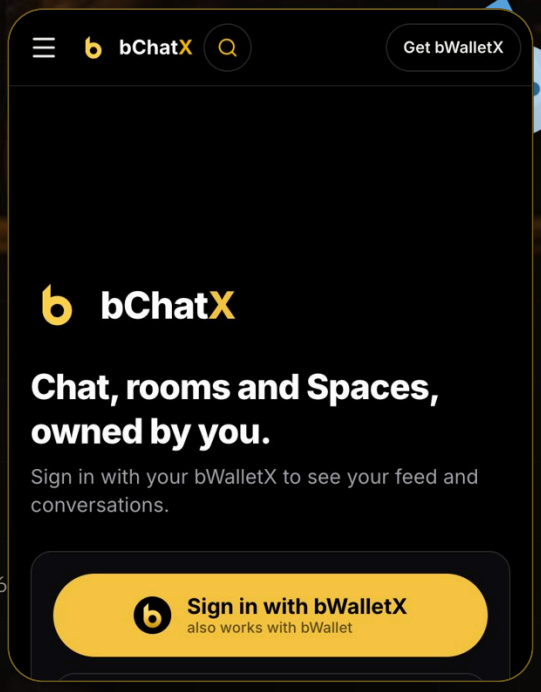

Rooms and Spaces, owned by you.

LIVE Rooms with their own token: hold it to get in

LIVE DMs, voice and video calls, tips

LIVE Spaces: live talks with a stage; pay at the door or by the minute

LIVE Guests can listen without signing in

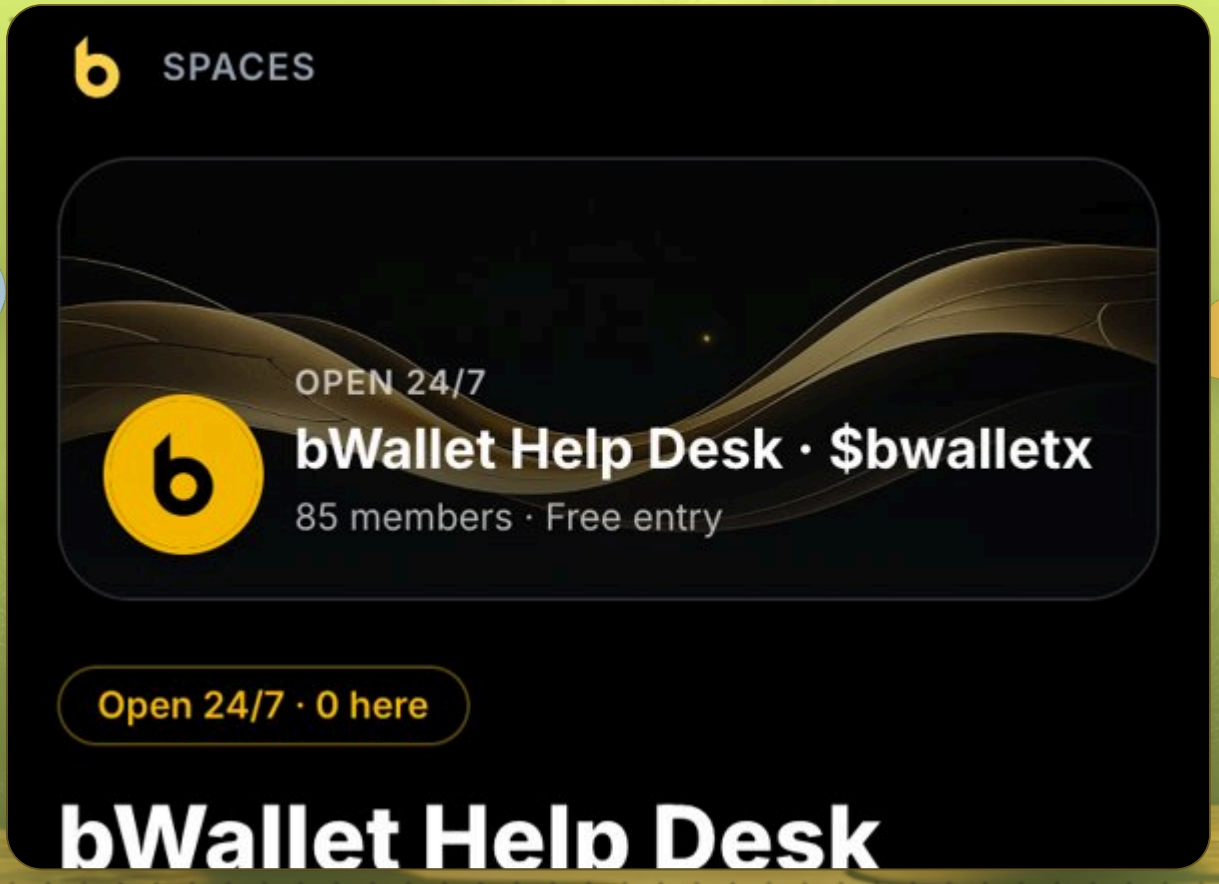

ASK B

Help that never closes.

b is the assistant inside the wallet. Ask in plain words in the app, at bchatx.com/ask-b, or hold to talk. b also sits in the Help Desk Space, open 24/7.

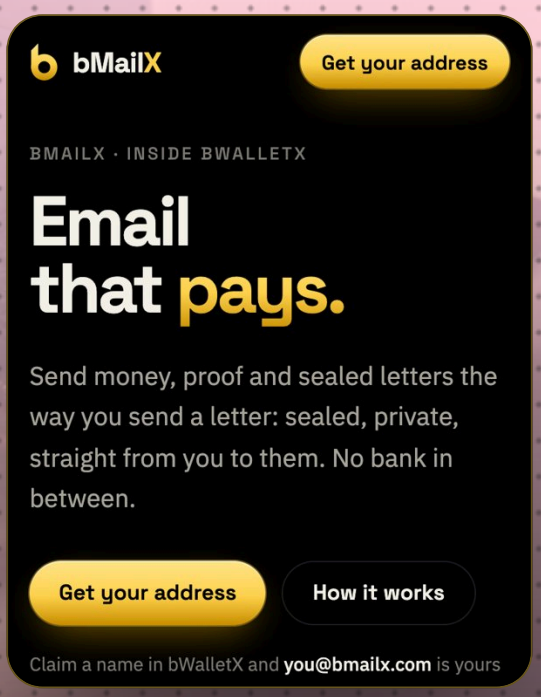

LIVE Send b a bug report in one tap, then see what happened to it under Your reports.

BMAIL · BMAILX

Mail that pays you.

- **LIVE** Sealed letters: only the person you write to can open them
- **LIVE** Each stamp is a real payment to the reader. Penny post: 1¢
- **LIVE** Set your price to reach you. Friends free, always on top
- **LIVE** Reply paid, so they can answer for free
- **LIVE** Agreements: send, both sign, sealed on chain

Spam pays you now.

EXCHANGE

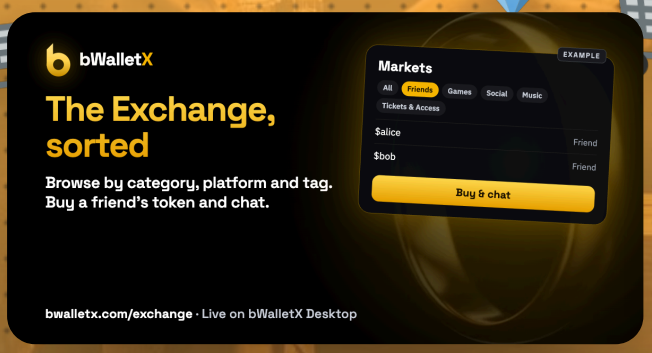

Buy, sell, launch.

LIVE Buy and sell tokens and NFTs wallet to wallet; we never hold them

LIVE Launch your own coin, your share time-locked with a public receipt

LIVE Airdrop to every holder with one approval

LIVE The Store: themes for $1, yours to keep

Exchange

AGENTS

An AI with pocket money.

LIVE Agent accounts: own keys, own budget, a daily cap, and Stop

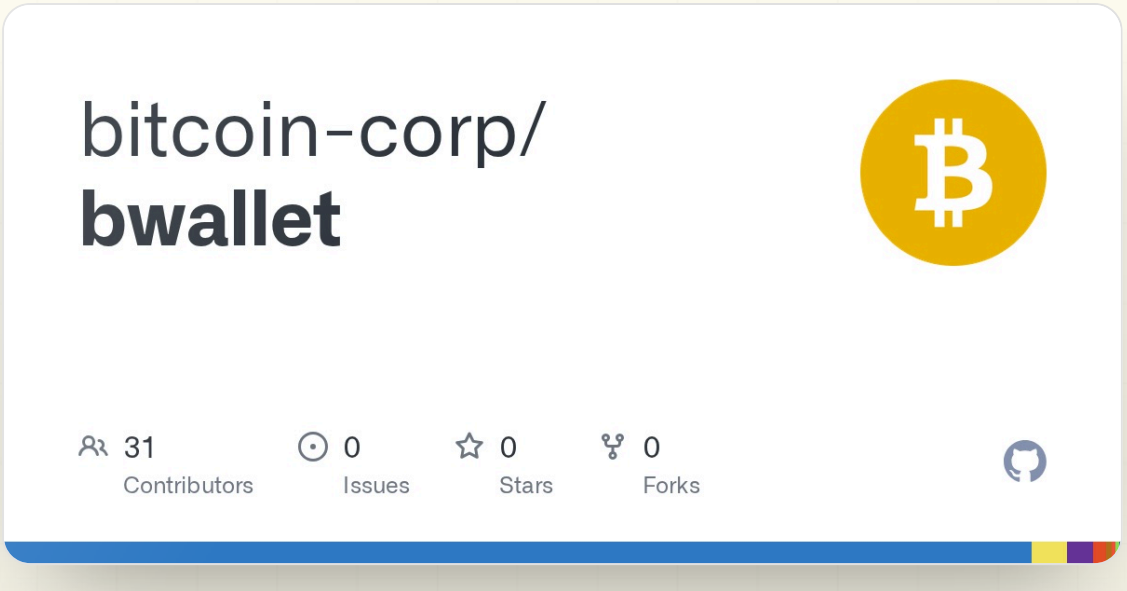

LIVE The `bwalletx` CLI and MCP server for your own agents

LIVE Any site or agen[illegible]ay or sign (BRC-100)

> *It can only spend what you gave it.*

OPEN SOURCE

Yours, really.

LIVE The wallet is open source (MIT): read it, build it, fork it

LIVE Your coins sit at your own addresses; your 12 words restore them

LIVE Locks are enforced by the network: nobody can move them early, us included

What's open, and under which licence

PRIVACY

Plainly.

LIVE Your keys and recovery phrase never leave your device

LIVE No ads, no tracking, no selling your data

LIVE No analytics or crash reports

LIVE Space transcripts only when the host turns it on and each speaker agrees, with a visible badge; transcription audio is deleted after. In bWalletX.

COMING Hosts can keep a recording if everyone agrees; paid storage on bDriveX is coming

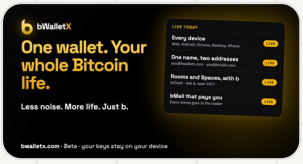

COMING End-to-end encrypted DMs
